

ADDITIVE MANUFACTURING SOCIETY OF INDIA

An Insight ...

AMSI

*Driving the Growth of 3D Printing &
Additive Manufacturing Ecosystem in India since 2009*

AMSI HAS BEEN A CATALYST FOR CHANGE, SHAPING A VIBRANT ECOSYSTEM FOR ADDITIVE MANUFACTURING IN INDIA SINCE 2009

The Additive Manufacturing Society of India, established in 2012 is an apex body with an objective to promote state-of-the art 3D Printing and Additive Manufacturing technology and expand collaborative relations with international organizations in all the aspects of additive manufacturing such as R&D, manufacturing, training and skill development to empower India's advanced manufacturing technology.

AMSI has a great network and MoU's with global additive manufacturing organizations.

Additive Manufacturing Society of India has over 30 leading global and local AM industry, corporate members and over 50 technical institution members across the country and more than 2000 professional members.

Dr. L Jyothish Kumar is an accomplished expert in the field of Additive Manufacturing (AM), with a rich academic background that includes a Master's degree from De Montfort University in the UK and a PhD focused on aerospace applications of AM technology and advanced metallic materials utilizing Direct Energy Deposition.

With over 20 years of experience in the AM industry, he brings a wealth of knowledge and practical insights into the development and implementation of innovative manufacturing solutions, particularly in aerospace.

His expertise likely encompasses a range of topics, from material properties to process optimization and industrial applications, making him a valuable asset in advancing AM technologies.

Dr. Jyothish has played a vital role in shaping the National Strategy for Additive Manufacturing under the aegis of Ministry of Electronics and Information Technology, Government of India. At present he is serving as a Working Group Member on Additive Manufacturing under the Ministry to evaluate and prepare draft for National Strategy for Additive Manufacturing - NSAM 2.0.

Dr.L. Jyothish Kumar
President - AMSI

AMSI
ADDITIVE MANUFACTURING
SOCIETY OF INDIA

ADDITIVE MANUFACTURING SOCIETY OF INDIA ACTIVITIES

- Assist industries by promoting 3D printing technology in their business interests and encouraging technology upgradation and R&D support.
- Provide strong interface in the adoption of 3D Printing technology with Federal and State Governments in the formulation of industrial policies
- Organize Conference, Workshops and Interactions with R&D and educational institutions, domestic and international businesses, trade and investment forums.
- Networking with global 3D Printing organisations to achieve MAKE IN INDIA and position India as a hub for 3D Printing development and implementation

“GLIMPSES OF INTERNATIONAL CONFERENCES AND TRADE SHOWS ORGANIZED BY AMSI”

- **2009**-First International Conference and Exhibition on Rapid Prototyping and Additive Manufacturing Technology- AM 2009, Bangalore, India.
- **2012**-Second International Conference and Exhibition on Additive Manufacturing Technology- AM 2012, Bangalore, India.
- **2013**-Third International Conference and Exhibition on Additive Manufacturing Technology- AM 2013, Bangalore, India. During AM 2013 Conference AMSI signed an MOU with French Rapid Prototyping Association and CMRDI, Egypt for Collaborative Additive Manufacturing Research and Development Activities.
- **2014**-Fourth International Conference and Exhibition on Additive Manufacturing Technology- AM 2014, Bangalore, India.
- **2015**-Fifth International Conference and Exhibition on Additive Manufacturing Technology- AM 2015, Bangalore, India.
- **2016**-Sixth International Conference and Exhibition on Additive Manufacturing Technology- AM 2016, Bangalore, India.
- **2017**-Seventh International Conference and Exhibition on Additive Manufacturing Technology- AM 2017, Bangalore, India.
- **2018**-Eighth International Conference and Exhibition on Additive Manufacturing Technology- AM 2018, Bangalore, India.
- **2019**-Ninth International Conference and Exhibition on Additive Manufacturing Technology- AM 2019, Bangalore, India
- **2021**-Tenth International Conference and Exhibition on Additive Manufacturing Technology- AM 2021, Bangalore, India.
- **2022**-Eleventh International Conference and Exhibition on Additive Manufacturing Technology- AM 2022, Bangalore, India.
- **2023**-Twelfth International Conference and Exhibition on Additive Manufacturing Technology - AM 2023, Bangalore, India.
- **2024**-Thirteenth International Conference and Exhibition on Additive Manufacturing Technology - AM 2023, Bangalore, India.

NATIONAL STRATEGY FOR ADDITIVE MANUFACTURING

**NEXT GENERATION FOR DIGITAL
MANUFACTURING, MINISTRY OF
ELECTRONICS AND INFORMATION
TECHNOLOGY, GOVERNMENT OF INDIA.**

Additive Manufacturing Society of India (AMSI) has played a vital role as an expert committee member in framing the 'National Strategy for Additive Manufacturing, India along with the Ministry of Electronics and Information Technology (MeiTy), New Delhi, Government of India'.
